## Endorsement of the Flagship ExtremeEarth

Dear Dr. Bauer,

On behalf of the consortium Digital Bioeconomy - Transforming agriculture and food systems for environment and society (<https://www.digital-bioeconomy.eu/>) I am expressing our strong support for the proposal of the future ExtremeEarth Flagship. The scientific and technological developments proposed in ExtremeEarth would be of very high relevance for many of our research activities, a great value is seen in the scaling up of supercomputing capacity for climate and weather modelling with beneficial value for applications in agriculture and the larger bioeconomy.

Kind Regards,

Prof. Dr. Frank Ewert  
Leader of the Consortium Digital Bioeconomy
